

KRIS TOOM

Senior Analyst | Enterprise Platforms & Integrations

kristoomtk@gmail.com | +372-59091699 | [LinkedIn](#)

SUMMARY

Senior Systems Analyst with experience delivering enterprise platforms, workflow automation, and system integrations. Proven track record of translating business requirements into technical solutions, leading system implementations, and improving operational processes through cross-functional collaboration and scalable enterprise systems.

WORK EXPERIENCE

Senior System Analyst at Ignitis

Aug 2024 – Present

- Designed and implemented enterprise CRM and project planning solutions, translating business requirements into scalable system workflows and technical solutions.
- Led the implementation of enterprise billing platforms, coordinating requirements, vendor collaboration, stakeholder management, UAT, rollout activities, and production delivery.
- Owned third-party integrations and back-office systems, ensuring reliable data flows and alignment between business processes and enterprise applications.
- Collaborated with cross-functional teams to improve system functionality, optimize workflows, and deliver scalable solutions supporting core business operations.
- Managed annual Estonia IT CAPEX and OPEX budgeting, forecasting, and monitoring to align technology investments with business priorities.

Platform Service Engineer at Omniva

Sep 2023 – Aug 2024

- Resolved complex platform issues using log analysis and cross-functional collaboration with support, product, and engineering teams.
- Administered Jira, supported workflow improvements, and maintained technical documentation for internal users.
- Led the implementation of a new Jira-based internal support platform, improving operational efficiency and transparency.
